Mud Guards* Optional

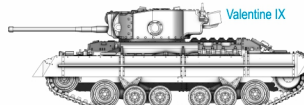

* Choose either the **BLUE** or the **PINK** set. The **BLUE** set was commonly used during the North African and Sicily campaign; whereas the **PINK** set was on Russian Lend-Lease vehicles and also later in the war.

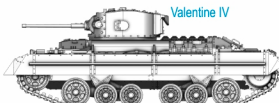

Used AEC A180 131 hp 6-cylinder diesel engine. An auxiliary petrol-driven external fuel tank installed for extended range.

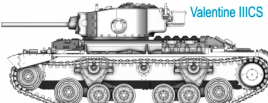

Modified turret design by moving the front turret plate forward and a larger rear bulge for an extra loader.

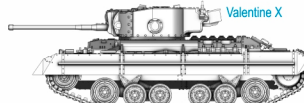

An Valentine V upgraded to the 6-pounder gun and a 165 hp version of the GMC 6004 diesel engine, somewhat improving mobility.

An Valentine II using an American 138 hp GMC 6004 diesel engine and US-made transmission. Slightly shorter range, but quieter and highly reliable.

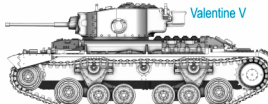

Valentine III modified by the New Zealand Army replacing the 2 pounder with a 3" Howitzer and used in Guadalcanal in the Solomon Islands.

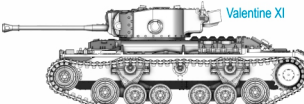

New turret design with a Besa coaxial machine-gun. Welded construction with a 165 hp engine instead of the 130 hp engine in some production.

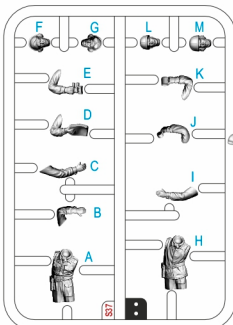

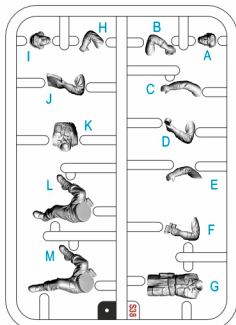

The Tank, Infantry, Mk III, Valentine was an infantry tank produced in the United Kingdom during World War Two. More than **8,000** of the type were produced in **eleven marks**, plus various specialised variants, accounting for approximately a quarter of wartime British tank production. The many variants included riveted and welded construction, petrol and diesel engines and a progressive increase in armament. It was supplied in large numbers to the USSR and built under licence in Canada. Developed by Vickers, it proved to be both strong and reliable.

An Valentine III but with the GMC 6004 diesel and US-made transmission. Slightly shorter range, but quieter and highly reliable.

An Valentine X upgraded with the QOF 75mm gun and a 210 hp version of the GMC 6004 diesel; welded construction and used as a command tank.

Commonwealth Tank Crew (284014)

This is a **two sprue** multi-pose **Commonwealth Tank Crew** plastic figure kit from **Rubicon Models**. It enables you to assemble **four** figures. A summary as follows:
